Molotov Insists On Postponement Of U. N. Assembly

Reported Ready To Impose

Sept. 23 Date Is Not

EASTERN BLOC IN MOLOTOV HUDDLE

By PIERRE J. HUSS
(I. N. S. Staff Correspondent)

PARIS, Sept. 7.—Soviet Foreign Minister Molotov was reported to be ready to impose an "indirect" boycott on the U. N. general assembly if the Big Four foreign ministers do not postpone that body's Sept. 23 meeting.

Molotov went into a close huddle with delegates of the eastern bloc as British Foreign Secretary Bevin and his confidant, Hector McNeil, left Paris for London for talks with cabinet members on final disposition of the U.N. problem.

McNeil was said to be planning to return to France tomorrow, but Bevin has designated A. V. Alexander to represent Britain at tomorrow evening's session of the council of foreign ministers.

Molotov To Make Demand

Informal circles close to the Soviet delegation said Molotov is prepared to demand a "yes or no" on his demand for postponement when the foreign ministers get together.

Members of the western camp believe the entire U.N. picture is complicated by the certainty that public opinion in countries like the U. S. and Britain will accept any new delay for the general assembly as a victory for the Soviets and a blow to the U.N.'s prestige.

All delegates await the return of Secretary of State Byrnes from Stuttgart for a showdown battle on the matter.

The legal and drafting commission, the economic commission for the Balkans and Finland, and the Romanian political and territorial commission conducted business as

PA NEWC OBSERVES

Workmen giving the front of the People's Savings & Trust building a cleaning were drawing quite a crowd of onlookers this morning. The men were using a steam blower to do the work and the noise caused the passersby to look skyward and halt a few minutes to observe.

Homes in the olden days that were meant to last for ages, it appears. The timbers being salvaged in razings the Dana property opposite The Castleton, on North Mercer street, although used in the building for probably a hundred years, are found to be in excellent shape, and of unusually large size.

Work of razing the former K. of C. home on North Jefferson street is progressing steadily. The tearing down process has now reached the first story. Much valuable building material is being salvaged. The site is being cleared for future use of the Pennsylvania Power company.

Streets for many blocks from Taggart stadium were used for parking cars of spectators at the football game last night, some of the cars being parked blocks away from the stadium because of the huge number. Taylor street provided an aid in handling the immense traffic in the stadium vicinity, police officers report.

Twins In First Highland Grade

As if four "double-takes" weren't enough for the public school system of New Castle, it now is revealed that five, not four, sets of twins are entering first grade this year.

Besides the twins at Oak street, Rose avenue, North street, and West Side, mentioned in the News Friday evening, Highland avenue school has a pair—Joel and Noel Wingert. The boys are the sons of Mrs. Bette Wingert of 1112 Highland avenue.

All right, what school will make it six?

Princess' Engagement May Be Announced

(BULLETIN)

LONDON, Sept. 7.—(INS)—The London Evening Star today gave wide prominence to reports that announced the engagement of Princess Elizabeth to Prince Philip of Greece will be made shortly.

The newspaper said this development is confidently expected by circles close to the Royal family.

According to The News, discussions among intimate friends of the couple no longer center about the probability of marriage. The topic now is the date on which announcement will be made.

The News said that formal announcement will be issued at a time considered suitable by King George and his advisers and that until then

Members of the union were reported given a last minute warning prior to the usual day off on Saturdays. They were told that if no street cars were running Monday not to use automobiles to report for work, it was reported.

Earlier the union committee declared if the Duquesne Light company would "bait the hook with just one decent offer" it might avert the strike. The union is demanding 20 per cent pay boost, improved working conditions, a pension plan, and vacation allowances.

During yesterday's negotiation session, Mueller and Edgar Cole, a member of the committee, left the meeting to attend a strike committee session.

Those Early Fall Events Really Call For Flowers

That wedding, or reception, or evening party, all of them call for the crowning touch of hospitality and friendliness, flowers.

Fall flowers with their glorious tints and shades, provide that last riot of color before the winter days set in. They never were prettier than they are just now. And they do complete a party so well.

MOLOTOV INSISTS ON POSTPONEMENT OF U. N. ASSEMBLY

(Continued from Page One)

usual today, but conference interest is centered on tomorrow's tentative meeting of the Big Four.

May Seek Postponement

Informed sources said that if Byrnes returns in time for such a meeting, Soviet Foreign Minister Molotov may seek to win at least a few week's postponement by trying to convince America and Britain he has a real desire to go to New York himself to lead the Soviet delegation.

Molotov's silence in yesterday's session of the Italian territorial and political commission served to heighten expectancy among delegates that the Soviets have some card to play soon.

It is generally believed Molotov is holding off until he gets the U.N. postponement issue settled one way or the other.

Current opinion in Luxembourg's palace is that a short postponement of the general assembly, such as China suggested, might serve to expedite the peace conference and the same time isolate Russia to some top team to New York.

Molotov is fully expected to deliver a strong reply to Byrnes' Stuttgart speech in the near future, using the occasion to taunt the French back to the Soviet side.

FOREIGN MINISTERS WILL MEET SUNDAY TO DISCUSS ISSUE

(Continued from Page One)

to open in New York on September 23. Several days ago General Secretary Trygve Lie said he assumed it would begin as slated because he had received no requests for postponement.

France For Postponement

French Premier Georges Bidault seems prepared to vote for postponement in order to permit the peace conference to continue uninterrupted. He apparently is anxious, as host, to see the conference end successfully.

Paul Henri-Speak, president of the general assembly, is said to favor the Chinese suggestion for postponement until November 11.

That seems to leave U. S. Secretary of State Byrnes as the only possible opponent to the idea of delay.

Byrnes once suggested that the general assembly and the peace conference run concurrently, but Soviet Foreign Minister Molotov replied that Russia would not have enough foreign experts to staff two meetings simultaneously.

American circles in Paris said today that Byrnes' position now—in view of all developments since he left for Germany Thursday—is a "loss-up."

They said he agreed originally to delay if that were necessary.

However, reliable sources said, Byrnes was forced to take his firm stand against postponement as the result of a cabled demand by Sen. Vandenberg, who declared a meeting of the assembly of September 23 was of paramount importance to world affairs.

Probe Death Of Slippery Rock Man

Resident Of Stoughton's Beach Is Found Dead In Rear Of Parked Car Friday

Butler County Coroner J. Charles Dengler is investigating the death of James A. Dilts, 40-year-old resident of Stoughton's Beach, who was found dead Friday morning in the back seat of his locked automobile parked along Route 8 near Slippery Rock.

The coroner revealed that Dilts died of a bullet wound in the head. A .22 caliber target pistol was found in the rear seat near the body.

Dilts mysteriously disappeared last Tuesday morning and became the subject of a wide spread search by friends, relatives and police. He was last seen at Stoughton's Beach where he had been living during the summer with his wife and six children. It was theorized that he had taken his life on Wednesday.

A chartered plane was used in the search for the man, but Louis Kradel of Butler discovered the car, not reporting it, thinking it was the car of a nearby fisherman. A worker discovered the car Friday morning and reported it to Butler police, who in turn called the coroner.

The remains were removed to a Butler funeral home.

Introduced by Mrs. Robert N. McBurney, Mrs. Clifford M. Propst was the speaker and gave "Echoes From the National Meeting in Grand Rapids, Mich.". Mrs. Propst was a delegate to the meeting and members found her account of much interest.

The auxiliary voted to accept its part of the national missions apportionment for sewing and supplies for Dr. Salisbury's hospital in Gadsden, Arizona.

Announcement was made of the Shenango presbyterian district meetings to be held October 16 and 17 at Volant and Bessemer respectively.

For tea served at the close of the meeting, red roses and baby's breath decorated the tea table at which Mrs. McBurney presided.

Hostesses were Mrs. C. W. Wettich, Mrs. Frank Woods, and Mrs. Alice McKillip.

Flying To The Moon

Man's first flight to the moon is coming closer. When experts on guided missiles talk of shooting rockets to that heavenly body and also of space ships capable of flying around the earth like small satellites, the layman can hardly scoff at predictions that a lunar voyage is not far in the future.

Two recent statements by men who speak with authority can be cited as exhibits. Dr. H. J. Stewart of the California Institute of Technology and Gen. H. H. Arnold, wartime chief of the Army Air Forces, agree that rockets may soon be constructed that will be able to fly around the earth like a satellite at an altitude of 100 to 200 miles. General Arnold believes there is a "real possibility" of a true space ship and Dr. Stewart conceives of using such an "orbiting" missile to control others by radar.

Such wonders are not yet actualities but it is significant that they are considered attainable. If so, why shouldn't the next step be a missile designed to carry passengers to the moon? Anyhow, there is support here for the prophecy made by Mr. Wholey of the British Interplanetary Society, that a lunar trip will be possible within 15 years.

It is still in order to ask whether anyone will want to go. An Australian scientist, Prof. Kerr-Grant of Adelaide, seems to doubt it. He says that human beings would suffer chronic seasickness on the moon and he points out that no one seems to have any notion of how to get back. To many minds, his observations rob the whole idea of any attraction it might have had. Most tastes for interplanetary travel would be satisfied by a little flight around the world at a height of not more than 200 miles.

Calypso Vs. Bikini Bounce

Despite a great deal of saber-rattling in divers quarters, there are signs that America is settling gradually in the ways of peace. One of the indications is the introduction of the calypso, the new terpsichorean creation which was declared the official dance of the recent convention of the Dancing Masters of America.

"It's a lazy, relaxing thing, though you travel around the floor instead of staying in one spot as in the rumba," Franklin Oakley, DM president, explained. "It's what people need now and I predict it will soon be as much the rage as was the conga a few years ago."

This news will probably be welcomed by thousands, not only of those who dance themselves but also of others who consider dancing strictly a spectator sport. In the war years when, as was to be expected in view of the jangled state of the world, the jitterbug style shakily reigned, there were several cases recorded of spectators dropping from exhaustion merely from watching couples contortingly cavorting on the dance floor.

And so, while not exactly as easy on the arches as the stately minuet, the calypso will probably be greeted with a sigh of relief after the dizzy jitterbug era. But there will probably be holdouts against this movement to remove dancing from the same strenuous bracket of athletics as football and lacrosse.

From Hollywood comes the disturbing word a new routine, known as the atomic dance or the Bikini bounce, is going over with a bang and has gained the endorsement of the Associated Dancing Teachers of Southern California.

The Irony Of The Chinese Situation

According to latest dispatches from China the Nationalist government and the Communist hordes are about to engage in a full-blown war. This is not surprising, as they have been fighting sporadically ever since the war against the axis ended with the collapse of Japan.

If and when a full-scale war comes it will mean that the mission of General Marshall to work out a compromise agreement between the Nationalists and the Chinese Reds has failed. This is not surprising. It is doubtful whether there is any diplomat alive today who could have worked out such a compromise. The "poor Chinese" as we like to call them, have been fighting among themselves from time immemorial. A state of civil war in China seems almost like a return to normalcy. There have been few years in the memory of living men when China has been at peace with itself. A strong Nationalist government, able to bring peace to the Celestial Empire, would of course be a God-send to the suffering Chinese. But whether it will come in the reasonable near future is doubtful.

But there can be little doubt that Moscow is behind the activities of the Chinese Reds. That was evident long before the World War. The reason is obvious. Russia wants to obtain control of Asia through domination of China, and perhaps will get it.

The present situation in China is tinged with bitter irony for American diplomacy. For decades it has been our purpose—and rightly so—to prevent control of China from falling into the hands of the Japanese. We felt that this would be a source of extreme danger to the future of the United States, and it would have been. "China" for the Chinese" has been a slogan of the Western World.

Well, the Japanese menace of controlling China is ended, at least for several decades. But a new probability of alien control of China has come through the machinations of Soviet Russia. The technique of Moscow is not to invade China with Russian armies but, as is its custom, to induce the Chinese Reds, whom Moscow has subverted with its doctrines, to do the fighting for them. If Russia succeeds in getting control of China, then there will be another menace for us to confront, a menace which seeks to gain control of the world through subversion and propaganda and a boring from within. Truly there is bitter irony in the situation.

What became of the small nations at the Paris peace conference?

It is taking the diplomats at Paris so long to make a peace treaty that we are beginning to suspect it is a WPA job.

If the Republicans have half as many votes in November as they had confidence in August it will be a G.O.P. landslide.

The World and the Mud Puddles

NOT SO GOOD

MILL AND FACTORY, a leading industrial journal, makes some discouraging reports about the drop in productivity of workers in certain industries since the end of the war. Some instances are cited:

Henry Ford II reports a decline of thirty-four per cent per worker during the past year. General Motors reports a decline of thirty-seven per cent below 1941. It is pointed out that machining of a cylinder block, which took 70.51 minutes in 1940 now takes 125.01 minutes. It also stated that a radiator assembly, requiring 21.36 minutes in 1940 now takes 31.09 and that the metal stamping at the rate of two hundred thirty-five pieces per hour in 1941 dropped to eighty-three pieces in February, 1946, while a pre-war rate on a grinding job was one hundred eighty per hour, as against one hundred per hour in 1946.

I do not know the reason for this decline in working men's efficiency, but it would seem that the automobile workers having received their increased pay are rather indifferent to the quality and quantity of their product. This difference can hardly be due to inferior equipment, as automobile manufacturers have constantly improved their equipment. It is too bad that some factory method cannot be devised by which all workers are paid for the amount of work they do and not for the hours they put in; in other words, piece-work, where it is possible, as the greatest inducement of production.

This is the time when increase in production is needed; when the consumers and the consumers purchasing power demand the fullest output. The country is hungry for new automobiles and the people are not getting them. The automobiles on the highways today express the durability of the automobiles made six and seven years ago and they also attest the care the owners have given to these automobiles, but many of the accidents on the highways are due to the failure of the machine because of its age. It will only perform so much work.

One of the nicest enterprises that has come to my attention in a long time is the Oldsters' club now in process of organization by the Philadelphia recreation commission.

The club will have branches all over the city and these branches will serve as social centers for men and women over 65. More than 135,000 members are expected to be benefited by the idea.

"Older persons find it difficult to keep themselves active and occupied," said George Adams, executive secretary of the commission, "and at the same time their proportion is increasing rapidly."

You people who live in small communities don't have the problem of old age to any great extent.

But in the cities, and particularly in the very large cities such as New York, Chicago, Philadelphia, Detroit, Los Angeles it is painful to see them in their last, sad years of lonesomeness, inactivity and neglect.

We do so much for our children, and rightly so. But how little we do for those who were once children and mothers and fathers and whose only crime is that they have outlived their economic and biological usefulness.

How often I see them in New York, sitting on park benches or in out-of-the-way corners of the public library, reading their time away or just staring into yesterday with eyes that are hungry for companionship and which, I am sure, have many a hopeless tear.

Sometimes, for lack of friends or kin, they talk to themselves and hold imaginary conversations with people whom they used to know and to whom, though absent, they say the things they might have said or would like to say.

Where are those people? Why are they? What are they?

They are the careless sons and daughters who are too busy with their own affairs to think of those who brought them up and suffered for them?

Are they friends who discarded them when they could no longer make use of them?

Are they husbands or wives long departed?

It is too bad that, with all our

accidents will happen, of course, but with everything normal, it is very bad manners to be late to a dinner or luncheon engagement.

The correct time to arrive is 10 to 15 minutes before the time appointed. A hostess need not wait more than 20 minutes for a tardy guest before starting the meal.

The youngsters will be up at dawn when such a day is planned. You'll find them waiting at the car with fishing gear in hand.

Their eyes will dance with ecstasy; and this you may be sure.

The memory of that fishing trip forever will endure.

For best of all the fishing joys the ancient sport bestows.

FAMILY FISHING TRIP

Now when it comes to fishing there are various ways to go:

The lonesome likes to steal to spots he fancies none may know.

The thoughtful fellow wants a friend to chat with now and then.

The women think, for baiting hooks, a fishing trip needs men;

But best of all is hire a boat, a sturdy one and strong.

And tell the children they may go and take them all along.

Some men would wade the rapid streams, and that is lonely fun.

Some choose to cast the lily pads, fine sport when neatly done.

On silence other men insist. They argue fish can hear.

And will not come to take the bait when chatters are near.

But give me laughter in the boat, and shrieks of pure delight.

And children shouting back and forth: "I think I've got a bite!"

The youngs will be up at dawn when such a day is planned.

You'll find them waiting at the car with fishing gear in hand.

Their eyes will dance with ecstasy;

and this you may be sure.

The memory of that fishing trip forever will endure.

For best of all the fishing joys the ancient sport bestows.

BIG NAMES FOR LITTLE GERMS

Some people think that it is a peculiar situation when germs, which are so small, are given names which are so big.

Perhaps they are given the big names because they cause such big trouble.

Sixty-five years ago there was almost nothing known about germs.

About that time the germs of typhoid, tuberculosis and diphtheria were discovered and identified.

Since then many other germs have been brought into our circle of acquaintance. Some of them cause disease and destruction. Some of them have been of great assistance in the prevention and cure of disease and in making this world a more comfortable place in which to live.

The science of bacteriology is in its infancy. It is a hasty youngster and gives promise of taking a prominent place in the world.

The Parent Problem

By GARY C. MYERS, Ph. D.

FIRST FEW DAYS AT SCHOOL IMPORTANT

Fortunate the child entering school for the first time who has been looking forward eagerly and hopefully to the new experience. No less important, perhaps, for the child who also happily awaits the day of his return to school.

For the beginner, his first few days at school weigh heavily in determining his school morale and consequent school success. Anything we parents can do to help him like school and win success there will have a bearing on his whole school lifetime. So many items other than book learning are involved, especially his way of getting on with other children.

Now shall we overlook his physical and mental health—his appetite and sleep, his degree of calmness and excitement, and his peace of mind. Though the child for whom school is a new venture must make many adaptations, the child of any age or grade may have to make many new adjustments, to a new teacher, new classmates, and even to a new school. His books, his lessons, and the ways of his classroom and playground seem strange to him.

Hundreds of parents write me for a copy of my bulletin "Parents Can Help the Child Succeed at School." I trust that this bulletin (which may be had in a stamped envelope by writing me at 235 East 45th street, New York, N. Y.) will help a lot of children whose parents read it to grow more happy and successful at home and school.

Truck Strike Effect Grows In New York

NEW YORK Sept. 7.—(INS)—The creeping paralysis of New York City's truck strike bit deeper today into hundreds of phases of the metropolitan area's life.

Large scale shutdown of industries was feared by Monday because companies can neither receive raw materials nor deliver their finished products. The printing and garment trades were especially hard hit by the truck drivers' walkout which is now in its fourth day.

Transportation of food was materially reduced but Mayor William O'Dwyer promised that he would use the full police power of the city to move essential food and medical supplies if voluntary emergency plans collapsed.

O'Dwyer met with representatives of the union and truck owners yesterday in a closed meeting and was said to have told them he would call on the city's 15,000 policemen and 185,000 civil servants to move the essentials unless an emergency plan was made effective.

Officials of striking Local 807, International Brotherhood of Teamsters, and representatives of the trucking companies were said to have agreed to move necessities. Later, however, officials of the union said they were unable to persuade their members to deliver food to certain chain stores.

Ends 22-Year

Exile From Italy

NAPLES, Italy, Sept. 7.—(INS)—The Rev. Luigi Don Sturzo arrived aboard the Vulcania on Friday to end a 22-year exile from Mussolini's fascism.

He was greeted by hundreds of government officials, leaders of the Christian Democrat party, relatives and friends. He was scheduled to travel to Rome by automobile.

He founded the popular party in 1919 but flew to Britain five years later. He passed most of his exile in the United States.

Upon debarking, Don Sturzo received a message of welcome from Premier Alcide De Gasperi, who is in Paris for the peace conference. Don Sturzo refused to comment on political affairs and only said:

"I am very happy to return to Italy, my native land, after 22 years. I am ready to work for its renaissance."

Revokes Permit For Tag Day For Yugoslav Event

McKEEPORT, Pa., Sept. 7.—(INS)—Mayor Charles A. Kinkaid today disclosed he has revoked a permit granted the American Committee for Yugoslav Relief for tag days September 20 and 21.

The mayor, in a letter to Matthew Cvetic, executive secretary of the organization, said the life of Corporal John L. Dick of McKeesport was jeopardized in the shooting down of an American airplane. The letter continued:

"Another reason for the action is because I am definitely opposed to assisting people of nations unfriendly toward the United States."

Kinkaid said the permit was canceled because of the shooting down of two American airplanes and "due to the situation existing between the United States and Yugoslavia," which he termed as unwarranted and "can be interpreted as an act of ingratitude and unfriendliness against the United States."

Gambling Probe Follows Suicide Of Indiana Mayor

NEW ALBANY, Ind., Sept. 7.—(INS)—Funeral services were planned today for Mayor Raymond Jaegers, New Albany's crusading mayor whose suicide brought to a violent head a battle good government advocates have been waging against gambling.

Flags flew at half staff in the city while two separate investigations of the gambling war were promised.

Gov. Ralph Gates ordered Indiana state police to make a "complete investigation" of every incident, including the slashing of an anti-gambling crusader and raids on seven gambling establishments.

Another investigation was promised by Prosecutor Nicholas Leist, who said he would ask the grand jury to investigate the case.

In St. Edward's hospital, W. Dudley Jewell, crusading member of the better government committee, whose activity precipitated the open warfare, declared:

"Gambling Is Through."

"We are serving notice here and now that gambling is through in New Albany."

Jewell's alleged assailant, James Frakes Stocksdale, 41, was being held in Floyd county jail, charged with assault and battery with intent to kill.

Jewell is executive secretary of the chamber of commerce and the attack occurred in his office.

Yesterday, Police Chief Ben Wolfe sent raiders into various establishments in the city with warrants charging operation of gambling games.

Congressman F. T. Tyler, who gave a verdict of suicide in Mayor Jaegers' death, said Jaegers had been suffering a nervous breakdown.

A week ago the mayor ordered police to stop gambling in the city or face dismissal.

Edwin L. Smith Receives D.F.C.

For outstanding service as a liaison pilot in the European theater of operations, Edwin L. Smith of The News composing room force today received a Distinguished Flying Cross from Secretary of War Robert Patterson.

Mr. Smith was a staff sergeant and pilot in the ETO and had 165 missions. As a liaison pilot his job was to spot targets for the American bombers. Fly supplies in units that were cut off from the main body of troops, evacuate wounded from front areas and to locate enemy troop movements and ammunition dumps. While the work of a liaison pilot did not get the public acclaim that a bomber or fighter pilot did, the work was dangerous and important.

The Distinguished Flying Cross is in recognition of S. Sgt. Smith's gallant service.

Charge Father With Strangling Infant

Trucker Charged With Death Of Infant By Strangulation. Used Glove

HUNTINGDON, Pa., Sept. 7.—(INS)—Formal charges of strangling his two-year-old daughter, Barbara, with a glove were slated to be brought today against James F. Plank, 36, of Rockhill Furnace.

Plank, a trucker, was arrested last night after a two weeks search for the child's slayer.

District Attorney I. Newton Taylor reported Plank had signed a confession that he gagged the girl to stop its wailing. The little girl was found dead in her crib August 21 with a long black woman's glove shoved into her mouth with such violence the tongue tissue was ripped.

Plank was held in the Huntingdon county jail pending arraignment, Taylor said. The case was expected to be turned over to the grand jury during the next term of court beginning September 16, he said.

Mrs. Frances M. Plank, 28, the child's mother, was originally hunted as a suspect, but later assisted police in their investigation. She had been working in Washington since early August and was unaware of the youngster's death, according to police.

Disease

Music instructor by profession, but a modern "Paul Revere" by choice, Mitchell Sadewitz of New York City arrived in this city this morning on a bicycle, having traveled 850 miles on a planned three-month cancer crusade.

The cherubic pedal-pusher will pause only briefly in this community before he heads his 115-pound conveyance to the highways again, going to Youngstown on the next leg of his tour.

Sponsored by the public relations division of the American Cancer Society, Sadewitz plans to cycle through six states, distributing literature and telling people personally about this dread disease which every year strikes down thrice the population of this city in its ravages.

Started In New York

The crusader left City Hall in New York to begin his tour and so far has pedaled his way through New Jersey, Delaware, Maryland, Washington, D. C., and Virginia. This will be his last stop in Pennsylvania before he ventures into Ohio.

His "bike" is loaded with ten signs, and he hands out thousands of pamphlets. His plan is to talk to as many persons as possible, address clubs and use the press and radio to deliver his sincere message.

So far his plan has borne fruit and he has received praise from medical men and societies all over the United States.

"If I can penetrate the wall of ignorance that surrounds cancer, I am happy," he says. "Most people know almost nothing about this disease, its symptoms, and its known cures. If I can save or extend the life of one person during my tour, I will consider my efforts a success."

Three Americans To Be Permitted To Leave Yugoslavia

BELGRADE, Sept. 7.—(INS)—Three American soldiers who for the past seven months have lived penned-up under protection of the U. S. embassy in Belgrade to avoid capture by Yugoslavia, were assured today that Marshal Tito's government will grant them exit visas.

The GI's, who steadfastly claimed innocence, were sought by Yugoslav officials in connection with the slaying last February 7 of Ivan Vasilenko, a Soviet under-officer.

They were promised visas, and a chance to leave the country, after U. S. spokesmen announced that another GI, Sgt. Charles E. Nicloff, has admitted implication in the slaying.

Nicloff is now awaiting court-martial in Italy, where he made his way by plane after the affair. Yugoslavia has been promised it may send representatives to the trial.

New Castle Defeats Erie East In Opener 20-0

**Crowd Over 12,000

Largest Opening Crowd In New Castle High History Sits
In On Stunning Victory; Coach Phil Bridenbaugh Begins 25th Year With Potent Team; Phil Richards, Gene Gribble, Archie Zarone Tally Touchdowns; Erie Lacks Offensive Power; Butler Here Next Friday For Class AA Battle.

Flashing unexpected power, a hard fighting, determined, aggressive New Castle high school "Red Hurricane" football machine swept to a stunning 20 to 0 triumph over Erie East High at the stadium last night, for an estimated 12,000 fans, the largest opening day crowd in local gridiron history.

The weatherman provided an evening much more fitted to swimming than football, but the heat failed to stop a New Castle high team that demonstrated that it has potential strength and will have to be reckoned with this year. A powerful line, with a fast set of backs, plus the will to win, spelled victory for the charge of Head Coach Phil Bridenbaugh starting his 25th year as head football mentor here.

Four Holdovers Star

Erie East, with seven veterans from last year in the lineup had been expected to give New Castle more of a battle. Erie didn't figure to run into a team with only four regulars back that could display such class. The four holdover varsity men from last year—Eugene Gribble, Lou Gilmore, Al Tate and John DiCola—played a very prominent part in the impressive win.

New Castle piled up 10 first downs to one for Erie and that one being unearned, coming on a five-yard penalty against New Castle late in the fourth period. These figures just about tell the story.

Richards Scores On Pass

About midway in the first period New Castle tallied its first touchdown of the season, having received the ball on a punt from Bill Lawrence, the Erie left-half, on the 49-yard line. Young Gene Gribble started what appeared to be an end run, then he decided to pass and tossed a 40-yarder to the waiting arms of Phil "Red" Richards, who caught the ball near the 25-yard line and outpassed the nearest Erie player in a sprint to the goal line. The try for the extra point by Gribble by placement failed.

New Castle had the ball on their own 20 on a punt from Lawrence as the first period drew to a close. New Castle 6, Erie 0.

Scoreless Second Period

It looked as if New Castle would break into the scoring column twice in the second period. Ira "Lullaby" Brown, the colored streak, raced to the 15-yard line once but New Castle was penalized for an infraction of the rules and the threat to score ended.

Again in the second period New Castle tallied what looked like an automatic safety but again a penalty hurt and there was no score. The first downs read New Castle 5, Erie 0 as the first half ended with Gene Gribble setting Erie back on the five-yard line with a swell 41-yard boot as time ran out.

Gribble Races 22 To Score

New Castle's second touchdown came in the early stages of the third period, on two nice running

Indies-Wampum Clashing Sunday

City Leaguers Journey To Wampum For First Title Of Five Game "World Series"

Manager "Hoss" Zidow and his Lawrence Indies, winners of the City league championship, will go in for higher stakes beginning Sunday when they clash with the Wampum Legion at the latter's field in the first tilt of a five-game series for the supremacy of the county.

A goodly crowd is expected to follow the fortunes of these two clubs in this "world series" setto, as both outfitts are loaded to the gunwhales with sparkling talent.

The Indies, first-half champs of the city loop, dusted off the Universal Potters four games to one to take the bunting. Wampum showed their power in the county series, whipping the strong Ellwood Elks three in a row to capture the flag in that circuit.

Michaljko May Pitch

Zidow probably will send his ace flinger Mike Michaljko, late of the Appalachian league, to the firing line against the Legion. "Bud" Wardman is expected to call upon Frank Powell, his top chucker. Both these hurlers won two games in their respective series.

The Indies have Johnny Russ in reserve for slab duty, he having copped the other two games in the play-offs. Wardman himself may take the mound for his club when the series gets into the "chip down" stage.

As a curtain-dropper for a highly successful season, these clashes should provide some of the best baseball seen in the county this summer.

All-Stars Ready For Ellwood Elks

City League All-Stars Playing Benefit Game At Ellwood City Sunday

Manager Mike Annarella of the City League All-Stars today named his team to play the Ellwood City Elks at Ewing Park in Ellwood on Sunday in a 3 o'clock benefit game for an injured Ellwood player.

Annarella has picked the "cream" of the City league for the game—fielders: Davies, Annarella, Jack McCullough, Pete Razzano, D. Tropea, and Gibson; outfielders: J. Tropea, Pallerino and DeLone; catchers: J. Razzano and Montauro; pitchers: Fred Shaffer, Bill Barbato and Stroia.

The fans can be assured of seeing a first class battle all the way with the city leaguers a very strong outfit.

Johnson Bronze Cards Ellwood

Johnson Bronze baseball team with six victories and three defeats will close the 1946 season Sunday at the Ryantown field by playing the Ellwood City Vets at 2:30 o'clock, it was announced.

Young Bob Fee will do the Johnson Bronze pitching and will be backed up by such stars as Hotnick from the Columbus club and Freddy Wimer of the Legion team, among others.

Church Golfers To Play Monday

New Castle Church Golf league members will go to the Castle Hills course on Monday evening for a round postponed from last Monday evening. The matches should get started by 5:30 or 6 o'clock at the latest, it was announced. The league will end next Thursday evening.

LOS ANGELES, Sept. 7—(INS)— The Los Angeles Rams were first in the hearts of their adopted townsmen today after slapping a 16 to 14 defeat on the Washington Redskins.

Bessemer Opens Season Tonight

County Leaguers Will Play Duca D'Abruzzi At Marshall Field

At 3 P. M.

Bessemer, High Playing First Night Game At Home In School's History

Under the guidance of Coaches Bill Ciccone and Bob Glaspay, a fast but light Bessemer High school eleven will trot onto the field tomorrow at 8:15 to battle a rugged team from George Junior Republic of Grove City.

It will be the first game under the aegis of Bessemer's school band, under the direction of Joseph Martin will supply music before the game and during the intermission. A large aggregation of townpeople is expected at tonight's event.

LIGHT-HEAVIES BOX ON MONDAY

King TKO'd Izzo, Blair Gave Pozza Close Fight; Leasure And Elises On Docket

Light-heavyweights will feature the eight-night amateur boxing show Monday night in the Arena. They are Lou King, of Rochester, and Clarence Blair, of Akron. Blair lost a close decision to Bill Pozza here some time ago. King scored a TKO over Joe Izzo at Farrell.

While Pete Misto, a seasoned amateur of Youngstown, will take the wire with the 7 to 6 triumph over Pittsburgh. A double by Red Schoendienst and a single by Whitey Kuroski in the sixth inning provided what proved to be the winning marker.

Michaljko May Pitch

Zidow probably will send his ace flinger Mike Michaljko, late of the Appalachian league, to the firing line against the Legion. "Bud" Wardman is expected to call upon Frank Powell, his top chucker. Both these hurlers won two games in their respective series.

The Indies have Johnny Russ in reserve for slab duty, he having copped the other two games in the play-offs. Wardman himself may take the mound for his club when the series gets into the "chip down" stage.

As a curtain-dropper for a highly successful season, these clashes should provide some of the best baseball seen in the county this summer.

Play Butler Next

Erie's total efforts for the evening was nil as far as yardage was concerned. Bill Lawrence and Leo Bell did what little ball carrying the Hyde coached team did, which wasn't much to rave about. New Castle's sturdy linemen, led by big Al Tate, John DiCola and young Jasper Williams, the latter colored, and playing his first varsity game, saw to it that the visitors didn't do any wild running with the ball. New Castle will have to brush up on blocking this coming week as they get ready to face the Butler High team in the first class AA test of the season.

It was a swell opening game despite the lopsided score. Incidentally the score of 20 to 0 is the same score that New Castle defeated Erie East by ten years ago, just a continuation as it would seem.

Bessemer-Dukes To Play Sunday

County Leaguers Will Play Duca D'Abruzzi At Marshall Field

At 3 P. M.

Bessemer, High Playing First Night Game At Home In School's History

Under the guidance of Coaches Bill Ciccone and Bob Glaspay, a fast but light Bessemer High school eleven will trot onto the field tomorrow at 8:15 to battle a rugged team from George Junior Republic of Grove City.

It will be the first game under the aegis of Bessemer's school band,

team they have fielded this year. The club has been hopelessly in the cellar from the start and now languishes some 50 games out of the lead. The St. Louis Browns are a little better. Not much.

Should Do Something

Over in the National League—a softer league—the Pittsburgh Pirates are about on a par with that record for frustration and the New York Giants are a trifle better.

At a time when the club-owners are trying to add more games they have a more pressing problem in these run-down clubs. They are not popular at home and the customers elsewhere hate to see them come to town.

There may yet be some big shifts in the baseball map to take care of the situation in which the bedraggled few are maintained by the clubs which build and keep abreast of the times.

There are rumors around, and eventually there will be some changes and not in the number of games played.

John Roxborough Out In October

Former Manager Of Joe Louis Has Served His Time For Numbers Racket

JACKSON, Mich., Sept. 7.—(INS)—The Michigan parole board announced Friday that John Roxborough, Joe Louis' former manager, will be released from Jackson prison on October 4.

Roxborough was sentenced in 1942 on charges of operating a ten-million-dollar-a-year numbers racket in Detroit.

The former fight manager has served his minimum term of two-and-a-half years, less allowances for good behavior.

Louis tried unsuccessfully to get a parole for Roxborough last January, hoping to have his former advisor in his corner for the Billy Conn fight.

Roxborough is credited with guiding the "Brown Bomber" from amateur competition to the world's heavyweight championship.

Just Wouldn't Work

Sid Keener, the St. Louis sports editor who got the word on the decision of the owners to stay as they are with 154 games says they explained that adding more games would interfere with traveling for one thing. In addition, the statistical records would be jumbled inasmuch as current figures are based on 154 tussels.

To add 18 more games within the period of the present season thus wouldn't work and to lengthen the season would put the world series on the basis of a winter sport.

Where they ever came up with the notion that the customers should be given more, instead of less baseball, is a baffling as some of the other recent developments in the game. It really wouldn't be a serious offense to add more games. The customers simply could stay away when they became weary of it. However, there was no practical reason for the proposed innovation Money, maybe?

Big Gate Receipts

The way those gate receipts have rolled in this season has caused some of the owners to look with eager eye on ways to get more of that cash in the till. They insist—or some are quoted as saying any way—that more receipts will be needed to meet the \$5,000 a year minimum salary for the major leaguers.

That doesn't seem to make much sense. If a club can't make it in 154 whacks at the public it won't add much prosperity with 14 more ball games. Club without attendance are located badly or have nothing to offer the public.

There is no very good reason, for instance, for the Philadelphia Athletics to expect patronage for the

Seek To Confirm Truce Team Under Attack In China

NANKING, Sept. 7.—(INS)—General George Marshall's headquarters sought today to verify a Chinese Communist report saying that twenty men of a tripartite truce team including three Americans were killed or wounded in a North China strafing attack by Nationalist planes.

A spokesman at Marshall's headquarters said the true team in question had not reported since the Nationalist capture of Chengteh, capital of Jehol Province, when the alleged aerial attack took place.

The spokesman said, however, he was unable to confirm the report which was broadcast by the Chinese Communist radio at Yenan.

Yenan claimed that an American wireless operator received shrapnel wounds all over his body and had his hair burned off in the attack which was assertedly made by American-built planes.

The operator was reported in serious condition. Two other American interpreters and a radio technician said to have been slightly wounded.

The Nationalist drive into East Hoep Province, meanwhile, gained momentum with the capture of Sifungkow, at China's great wall, 106 miles northwest of Peiping.
